

DYSPEPSIA OVERCOME

Tone Up the Stomach with Hood's Sarsaparilla.

When you have dyspepsia your life is miserable. You have a bad taste in your mouth, a tenderness at the pit of your stomach, a feeling of puffy fulness, headache, heartburn, and sometimes nausea.

Dyspepsia is difficult digestion—that is what the word means—and the only way to get rid of it is to give vigor and tone to the stomach and the whole digestive system. Hood's Sarsaparilla, sold by all druggists, is the one medicine which acts on the stomach through the blood and also directly. Its beneficial effects are felt at once. Improvement begins immediately.

Hood's Sarsaparilla purifies the blood, makes the rich red blood that is needed for perfect digestion, and builds up the whole system. Be sure to get Hood's, for no other medicine can take its place.

GROWERS OF EGYPTIAN COTTON ARE AIDED.

A larger proportion of the Egyptian cotton now used in this country should be home grown, say specialists in the U. S. Department of Agriculture. The varieties raised in Egypt are liable to marked deterioration through interbreeding and a number of pests, in particular the pink bollworm, cause wide fluctuations in the total production from year to year. It seems unsafe, therefore, for American manufacturers to depend for their raw material entirely upon Egypt.

BIG THINGS ARE MOVING FOR ARDMORE

A GAS LINE FOR MANUFACTURING GAS EXCLUSIVELY WILL BE BUILT INTO THIS CITY FROM HEALDTON FIELD.

"Ardmore real estate is looked upon at this time as offering better profits than any other investment in Oklahoma," was a remark recently made by C. F. Martin of the Ardmore Refinery whose general offices are in Tulsa. The eyes of the investment public are turned toward Ardmore," continued Mr. Martin, and "you are going to witness a marvelous growth here."

Coming fast upon this expression by a conservative man who knows what he is talking about is a visit from a representative of one of the largest zinc mining concerns in the United States who is here to ascertain if gas can be had for fuel. If a satisfactory deal can be made for gas, one of the largest smelters in the country will be located here. The zinc will be brought from the mines of Missouri where the greatest zinc deposits of the world are located. The zinc haul will not add much to the shipping cost because Ardmore is located between the mines and the Gulf port where the metal is loaded for shipments to the eastern part of our own country and to be exported to foreign markets. The gas expert who is conducting the investigation will be bound to report that Carter county has an abundant supply of natural gas. Then the coming of the enterprise depends upon what price will be made for the gas. Owners of gas wells ought to be sparing with the gas because the time is here now when every foot of it can be sold at a profit! The statement was made that the investigator must report a plentiful supply of gas is based upon a report from the Healdton field which states that the production in that field alone is five hundred million cubic feet a day and in addition to that the Fox field which is virgin gas territory is capable of producing more than Healdton.

Another step toward solving the gas situation was made when pipe was purchased one day last week for a gas line to be laid from Healdton direct south to the right of way of the Blount road. When the line reaches the railroad right of way, one end will convey gas to Ringling and the other will convey gas to Wilson and to Ardmore. This line will be for industrial gas exclusively. The owners will not make any attempt to enter the Ardmore field to compete with the company here, but the new line will be used to convey gas for industrial purposes.

Conditions are favorable now for the building of a city here.

HELP YOUR LIVER—IT PAYS

When your liver gets torpid and your stomach acts queer, take Dr. King's new Life Pills and you will find yourself feeling better. They purify the blood, give you freedom from constipation, biliousness, dizziness and indigestion. You feel fine—just like you want to feel. Clear the complexion, too. 25c at druggists.

What He Really Meant.

"I expect that before long the congregation will be in a place where it will not require so much effort to keep warm," announced a clergyman from the pulpit of a church at Woodbury, Vt., on a cold Sunday morning, when the temperature was near zero, where there was a titter throughout the congregation. What the good man meant was that he trusted the new church, now building, would soon be ready for occupancy by the congregation.—Baltimore Star.

Her View of It.

"My dear," said Hawkins the other evening, looking up from his paper, "here's an article from the pen of an eminent physician to the effect that sleeping in the daytime is very injurious." "Well, that's just like a man," rejoined his wife. "They are always trying to trump up some excuse for staying away from church on Sundays."

A heavy cold in the lungs that was expected to cure itself, has been the starting point in many cases of disease that ended fatally. The sensible course is to take frequent doses of **EMERSON'S BOREHOUND SYRUP**. It checks the progress of the disorder and assists nature to restore normal conditions. Price 25c. 50c and \$1.00 per bottle. Sold by Bonmar Drug Co.

KANSAS LIVESTOCK ASSOCIATION IN SESSION

Wichita, Kan., Feb. 8.—Cattlemen and representatives of packers, railroads and banks of the Missouri Valley were here today for the opening of the second annual convention of the Kansas Livestock Association.

"Baby beef" marketing problems, grazing, public lands, stock yard facilities, livestock paper, the foot and mouth disease, state and federal sanitary regulations, railroad rates, exports and imports of livestock and the taxes on meat and oleomargarine were among the topics to be discussed. The convention will continue three days and will be concluded with a banquet Thursday night.

W. J. Tod, of Maple Hill, president, called the association to order this morning. The men who produce and market the state's meat, were welcomed to Wichita by Mayor Bentley. Albert Tucker of Eureka, responding for the association. In his annual address Mr. Tod urged a larger cooperation between cattle producers on the ranch, cattle feeders on the farm and the packers.

Other speakers on today's program were J. C. Mohler, secretary of the state board of agriculture, J. E. Poole, of the national livestock exchange of Chicago, and Walter R. Shirk, Kansas City, general livestock agent of the Missouri Pacific Railway Company.

With the exception of the final day no night meetings will be held, the evenings being given over to entertainment.

Much interest was manifested by the delegates in the sales of stocker and feeder cattle and horses and mules, to be held each day of the convention at the local stock yards.

National organization of live stock producers to combat proposed increases in railroad rates was advocated here today by James E. Poole, of Chicago before the convention of the Kansas Live Stock Association.

Mr. Poole, who told his audience that he was representing the National Live Stock Exchange, an organization of commission men, said the increases were sought by the roads because of burdens imposed on them by big packing industries. He urged support of a protest which his organization has filed with the interstate commerce commission.

Direct country buying, with a consequent slump in demand and prices at open markets was blamed by Mr. Poole for much of the recent decreased returns to stock raisers. He pointed out that market values have depreciated despite big export trade and increased domestic consumption.

Illustrating the power of the big firms over the railroads, he cited that "Swift alone originates 1600 cars of traffic daily and other packers in proportion."

"To charge the packer with responsibility for all trade ills would be obviously absurd," he said. "But the magnates of packingtown cannot deny that their policy is responsible for much of the adverse sentiment toward them. For more than a decade they have planned night and day to control distribution of meat products, not only of the United States but the whole world."

"They have repressed competition by purchase or otherwise until independent buyers at the stockyards may easily be enumerated. They have resorted to every possible expedient to control prices, not the least effective being direct country buying, and if the producer is dissatisfied, he is not to be blamed for getting into that humor."

"One remedy lies in such effective national organization as the packers and railroads have perfected, an organization able to make its voice heard in the halls of congress and before every body of state law makers. Such an organization of the live stock producers of the United States would be irresistible. The problem is up to the producers themselves."

War Upon Pain.

Pain is a visitor to every house and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkeley, Cal., writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise, next morning the stiffness had almost disappeared, four hours after the second application I was as good as new." March 1915. sidewalk in front of the bank. The pigs will be distributed among the twenty-one boys and girls belonging to the Pittsburg County Pig club. The members of the club are to care for the pigs and repay the bank from the sale of the increase next fall, keeping the profits made from the transaction for themselves. District Farm Demonstrator John White and others made addresses to the new owners of the pigs and a large crowd of interested spectators on the subject of hog raising.

ELMER AKERS GRANTED BAIL.
Attorneys Seek to Quash Information Against Him and Hopkins.

Lawton, Okla., Feb. 7.—Elmer Akers, one of the defendants charged with murder in connection with the death of A. T. Hopkins, will be admitted to bail in the sum of \$500. Judge Cham Jones announced this following arguments of attorneys. Akers is still confined in the county jail, no effort being made to make bond, as attorneys Monday will ask for the quashing of the information against him. Similar action will be taken in the charge against George Hopkins.
